#### **OBJECTIVE**

I'm a Python developer eager to apply my skills in building scalable and secure web applications. As a recent graduate, I'm passionate about learning, writing clean and reliable code, and collaborating with teams to create solutions that add real value for clients.

## **EDUCATION**

Bachelor of Computer Science, Calicut University

2022-25

## **SKILLS**

#### **Technical Skills**

- Languages & Web Technologies: Python, JavaScript, HTML5, CSS3
- Frameworks & Libraries: Django, React.js, Bootstrap
- Databases: MySQL
- Tools & Platforms: Git, GitHub, VS Code, Postman
- Core Competencies: RESTful API Development, Django ORM, Web Security (XSS, SQL Injection Prevention)

#### **Soft Skills**

- · Problem-solving and debugging
- Effective communication (technical and non-technical)
- Adaptability to new technologies and frameworks

### **PROJECTS**

**SchemeEase Web Application** – Built a government scheme management platform to connect beneficiaries with available schemes. Developed both backend with Django and frontend with React.js, implementing secure authentication using JWT and HTTP-only cookies. Utilized Django ORM and template escaping to prevent SQL injection and XSS, integrated RESTful APIs with MySQL, and delivered a fully responsive, user-focused interface.

**Movie Tracker** – Developed a Django-MySQL full-stack web app with real-time movie API integration. Built a responsive frontend using JavaScript, HTML, CSS, and Bootstrap, featuring watchlists, watched status tracking, and secure user authentication. Hosted on Render for public access.

#### **ADDITIONAL**

Languages: Conversational Proficiency in Malayalam and English.

**Training: Full Stack Web Development Training, One Team Solutions (2025)** – Completed hands-on training in Python (Django), MySQL, JavaScript, HTML, CSS, Bootstrap,React.js, REST API integration, and ORM, focusing on building scalable and dynamic web applications. Currently developing a live full-stack project, implementing back-end logic, database integration, and responsive front-end design to deliver client-ready solutions.

#### **DECLARATION**

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
